If you have misplaced this information, simply click on the "retrieve" button under "Forgot your password?" after clicking on the button below.

One of the most important sections to complete now is **Product Categories** in "Booth Info". Attendees have the ability to filter exhibitors via this data. If you do not have any product categories selected, you WILL NOT appear in their search. It is a check-box system and can be completed quickly. Please [contact me](#) with suggestions for additional product categories.

Additional details, such as videos, individual products, and show specials can be added at any time before or during HPBExpo. Note that these sections are meant to give the attendee an idea of your products or services. These sections are optional and not intended to be an exact copy of your in-person booth.

WARNING - BEWARE OF SCAM EMAILS

Beware of Emails from Third-Party Vendors

Have you received numerous emails from a company or individual promising all the contact details for everyone attending HPBExpo? Chances are, you have or you will. And, chances are very good that they are bogus offers.

HPBExpo does not sell its attendee list, so the lists these vendors are offering are not ours. And sometimes, there is no list as all - it is just a scammer attempting to get your credit card information.

Unfortunately, this is an issue through the tradeshow community. The most important thing we can do is education YOU - so that you don't fall victim to these offers.

WHAT OFFERS ARE LEGIT?

You may receive other third-party offers, from everything from hotels to booth carpet. While some offers aren't technically "bogus", they can end up costing you extra in added fees for using an unapproved vendor.

Watch for Red Flags such as:

- Email is from a first name only and address contains an unknown domain name
- Email is from someone you don't recognize as HPBA staff
- Email does not contain company information below sender's closure (no "signature block")

You can forward these emails [HPBA Show Management staff](#). We can verify or deny the validity of the offer and reply to the sender with a cease-and-desist letter. Unfortunately, these individuals tend to reinvent themselves shortly

will have ordering information posted in our online Exhibitor Service Manual, available in November. If you can't find the information you are looking for, inquire with HPBA Show Management staff or Freeman Exhibitor Services.

thereafter by creating a new "name" and email address with a new offer. It's best move these emails to your trash folder. Don't hit "unsubscribe" or reply back; both of those options only confirm to them that your email is valid.
